## RICHARD SMITH AND PAT BERGESON

**The ultimate guitar pull.** Two of the world's top guitarists swapping licks and trying to outdo each other. What could be more fun? Of Richard Smith, Tommy Emmanuel has said, "If you like my playing, you should hear Richard Smith". That's high praise from who many consider to be the best guitarist on the planet. As for Pat, his guitar chops are formidable, but you'll be knocked out of your lawn chairs when he pulls out his harmonicas. We guarantee you've never heard anything like it. **This is a show you won't forget.**

## TRINITY SEELY & CARIN MARI • THE COWBOY GIRLS

We've waited years to put these two incredible ladies together on stage. This is a first, as they've never appeared together on the same show.

**Trinity** has built a following in the western music world with her songs about ranches, horses, and life as a cowboy girl and mom.

**Carin** is a world class singer and guitarist that backs up Michael Martin Murphey when she's not playing her own solo shows. She performed here two years ago, and all the crowd wanted was more. **The Cowboy Girls.** Together again for the very first time.

## JON CHANDLER AND THE WICHITONES REUNION

**Jon** reunites with his band after more than a decade for this special set. Chandler's works have found a permanent place in the Americana music lexicon with songs about outlaws, in-laws and the occasional horse. A famous music critic once described Jon's music as "country and mid-western". Another said, "If Sam Elliot could sing, he'd sound like Jon Chandler". Welcome back, amigo. www.jonchandler.com
